

**Wind and Solar Generation Interconnection Requests (PSCo LGIP Queue)  
December 1, 2009**

Provided below is a summary of the solar and wind generation as per the Generation Interconnection Requests log dated October 5, 2009. The summary includes all requests submitted in the queue labeled GI-2003-1 through GI-2009-8, including requests that are currently active, as well as those that have been withdrawn. The summary details the total solar and wind generation for all requests submitted, and the total solar and wind generation for Energy Resource Zones (ERZ) 4 and 5.

<b>Totals (MW)</b>			
	<b>In LGIP</b>	<b>ERZ 4</b>	<b>ERZ 5</b>
<b>Wind:</b>	14,180	198	1,798
<b>Solar:</b>	1,254	1,220	-
